HONGKONG, SATURDAY, MARCH 7, 1903.

THE SANITARY BOARD.

With reference to our editorial comment of yesterday, the appointment of the members of the Sanitary Board under the new Public Health and Buildings Ordinance is notified in the Government Gazette issued this morning with yesterday's date, as follows:-

His Excellency the Governor has been pleased to appoint John Mitford Atkinson, M.B., Principal Civil Medical Officer, to be President, the Honourable William Chatham, Director of Public Works, to be Vice-President, and Colonel William Edward Webb, R.A.M.C., Principal Medical Officer, Edward Osborne, Fung Wa Chin and Lau Chu Pak to be members of the Sanitary Board.

By Command, F. H. MAY, Colonial Secretary. Colonial Secretary's Office, Hongkong, 6th March, 1903.

The full complement of ex-officio members does not appear by the above notification to have yet been appointed, for it is provided by section 8 of the Ordinance that, in addition to the Director of Public Works and the Principal Civil Medical Officer, the Sanitary Board shall consist of the Registrar General and the Captain Superintendent of Police. The same section provides for the appointment of six additional members, four of whom are to be nominated by H.E. the Governor and two by the ratepayers of the Colony. The Government nominees are those that held their appointments on the Board as constituted by the old law. It remains to be seen whether the nominees by the ratepayers will yet be appointed. It is desirable that they should be, and we trust that two public-spirited men will not be found wanting in the Colony to devote some time to the duties which will be imposed upon them in their acceptance of seats on the Sanitary Board of Hongkong.

DR. PENTECOST.

After five days of preaching and lecturing in Canton, Dr. Pentecost returned to the Colony yesterday en route for Shanghai and the North, and, in passing through Hongkong, kindly consented to address a public meeting of the Chinese-speaking section of the community. Arrangements were, accordingly, made for the use of the City Hall and an invitation, issued to "gentlemen, merchants, scholars and people," drew together a numerous audience. The Chinese came in hundreds and so far as we can learn were much and favourably impressed alike by Dr. Pentecost personally and by his utterances, which occupied nearly an hour and a half in delivery and interpretation. We take occasion, afforded by the proceedings above noticed, to summarize what may be regarded as the main features in a somewhat remarkable series of public meetings, which, if the Chinese assemblage be taken as in the succession, was brought to a close night before last in the City Hall. It should be premised that Dr. Pentecost's present journeyings in the East are in the interests of our Common Christianity. This object took him to the Philippine Islands at a juncture when, if we may judge from the reports of his sermons and speeches and certain statements and admissions in the Manila local press, the forceful, uncompromising, unapologetic presentation of Christian ideals and standards was a prime need of the new American colony. We write this in no Pecksniffian or Pharisaic spirit, but simply as recognizing a condition of things which almost invariably follows from the first impact of Western on Eastern civilization. The earliest chapters of colonial expansion under any flag are apt to be in certain aspects and from the Christian moralist's point of view bad reading, and Dr. Pentecost found in the public life of the Philippines colony much to condemn. He rebuked, admonished and exhorted in timely, judicious, forceful ways the irreligion and its attendant evils that he found to exist. The Hongkong clergy and ministers of all Protestant denominations and the representative laymen who signed the letter of invitation to Dr. Pentecost to hold meetings in this Colony, did well to give the public here an opportunity which has been used widely, of hearing the eminent preacher and evangelist.

Dr. Pentecost's public appearance in Hongkong, comprising Sunday service lectures and religious meetings sectional, deserve more attention could devote to them in our columns. The oratorical gifts of our distinguished visitor were seen to much advantage in "The Orient, The Anglo-S and Christianity," delivered under the auspices of the Odd Volumes Society. To the close attention of any audience for a quarter implies, under the most favorable conditions, strength, vividness, purity and energy of style, qualities joined in Dr. Pentecost with marked felicity of action. We demure strongly to certain positions advanced by the lecturer on this occasion and we aver that some of his generalizations were grounded on data insufficient, if not misleading. The address was, however, a striking popular success. The closing lecture on "The Reasonableness of Christianity" was of special value and worthy of Dr. Pentecost's great reputation as a Christian apologist. His chain of reasoning seemed to be strong and complete of its kind, whilst charm of style and manner added peculiar force to a memorable deliverance. Dr. Pentecost is a thoroughgoing student of the Bible and also of human nature and society. Both kinds of knowledge are essential to success in the task that he has undertaken, and long experience has taught Dr. Pentecost the right use of both. There are, we think, many in the Colony who have reason to be sincerely grateful to him for much fearless and wise advocacy of our Common Christianity. Our best wishes follow him through his further journeyings and endeavours in the noblest cause that can occupy a public speaker or teacher.

It is notified in the Government Gazette that H.E. the Governor has been pleased, with the approval of the Secretary of State for the Colonies, to appoint Mr. L. A. M. Johnston, recently Assistant Postmaster General of the Straits Settlements, to be Postmaster General of Hongkong, in succession to the late Capt. Hastings.

FROM a resident of Wu-how, who arrived from Canton last evening, we learn that the West River is on flood again. Our informant stated that the rise of water in the West River at this time of the year is an unusual occurrence. Below Tsoo-Ying and Luk-Lo, many villages have been under water. The Tsoo-Ying, a river next to Wuchow city, is also flooded.

SIR Chen-tung Liang, new Chinese Minister, left Shanghai by the Pacific Mail str. Korea on the 2nd inst. and had a great send off from crowds of Chinese and foreign friends. The previous day he was the recipient of a banquet, given by Mr. Tong Kid-son at which almost all the numerous Chinese notables, including the redoubtable Wu Ting-fang, were present.

THE last ordinary meeting of the Union Church Literary Club's first session was held last evening, when there was a very fair attendance. A paper was read by Mr. A. J. May on "Confucius and Christ," and the career and main teachings of the sage were clearly outlined, and comparisons and contrasts with the Bible were mentioned. Further information was also elicited at the close by various questions, and altogether the essay was highly appreciated. The closing social of the session will be held on the 20th instant.

THE N. Y. K. steamer Niogo Maru reports that Torijima, which was in a state of active eruption on the 9th of August last, when the inhabitants of the island—125 in all—lost their lives, is still in eruption. The steamer left Yokohama for the islands on the 5th February, and returned to port a few days ago. The eruption was active compared to that observed on the occasion of her previous visit, viz., 13th January. A new crater—a small one—has been formed on the eastern end of the island. The island was, however, well covered with grass and a large number of sea birds were seen flying about. The steamer passed the island on the 17th inst., on her homeward voyage, but the weather was stormy then and the tops of the hills were hidden beneath clouds. No smoke was seen rising from the new crater.—Kobe Herald.

HONGKONG AND SHANGHAI BANK.

REPORTED RUN ON THE SHANGHAI BRANCH.

We have received a telegram from Shanghai reporting a run on the local branch of the Hongkong and Shanghai Banking Corporation on account of the circulation of forged notes of the Corporation. The wire was despatched from Shanghai at 12.50 p.m. to-day. Inquiry at the head office did not elicit any confirmation of the report which, if true, calls for prompt and stringent measures for suppressing the uttering of forged notes—a practice that has recently been in operation in the North much to the annoyance of banking institutions most immediately concerned.

FLEET OF BRITISH WARSHIPS IN HONGKONG.

The harbour presents a striking sight in things naval. There are now moored in these waters no less than nineteen ships of the China Squadron. They are the first class battleships *Glory*, (flagship of Vice-Admiral Sir Cyprian A. G. Bridge, K.C.B., commander-in-chief, *Albatross*, (flagship of Rear-Admiral Henry T. Grenfell, C.M.G., second in command), *Goliath*, and *Ocean*. The first class four funnelled cruiser *Aurifer*, the *Argonaut*, and *Cressy*, and the two funnelled cruiser *Blenheim*. The second class cruisers *Eclipse* and *Talbot*, third class cruisers *Pique* and *Fearless*, the gunboats *Britannia* and *Ranier*, the sloops *Rinaldo* and *Vesud*, the torpedo boat destroyers *Janus* and *Whiting*. This combined with the despatch vessel *Albatross*, makes a grand total of nineteen ships. The appearance of this large force at this particular time of the year, has excited general comment on all sides. We are informed that the presence of this formidable array of force was a premeditated affair, on the part of the Admiralty, in order to show a bold front to the Russian fleet en route and which in all likelihood will call at Hongkong shortly. Another report states that the assembly of this force is to crowd out the Russian fleet so as to allow no chance for the Russians to find a berth in port.

R. E. VARIETY CONCERT.

The third variety concert for patients of the Station Hospital was held at the R. E. Theatre, by kind permission of Colonel F. J. Lambkin, R.A.M.C., last evening. Those who took part in the programme were: Miss Dolly Piers, Messrs. Burgess, Rogers, Allwork, Thompson, Anderson, Marley, Huddy, Chalmers, Palmer, Hardy, Smith, Edgar, Deane, Jenkins, Lang, Ly and Hughes. The artists rendered their respective parts with credit, and Pte. Heyde, 1st Sherwood Foresters, ably assisted at the piano. The management was under the direction of Mr. S. M. Allwork and Pte. Duff, R.A.M.C. These concerts are looked forward to, and highly appreciated by the convalescent patients of the Station Hospital.

RIALTO OPERATIONS.

FEBRUARY.

Share operations during the month of February though somewhat restricted and considerably interfered with by the Chinese New Year and the Race week showed a decided improvement and manifested a healthier feeling than has been noticed for some months past. It is true that the volume of business was not great, yet leading stocks have all exhibited a decided improvement in rates with the exception perhaps of Docks which, towards the latter part of the month, had a downward tendency. This improvement, no doubt, is due to several causes including that of a feeling on the part of the majority of operators that we have already seen the worst of bad times, and the fact that there is now more surplus money in the hands of operators in the shape of dividends for which they have got to find an outlet.

Bank shares have gone up during the month to as high a figure as \$715 per share cum dividend, and this price is more than amply justified by the report that the 12 sections issued to the shareholders for the last half year. Another reason of this high quotation for Banks must not be lost sight of, and that in itself apart from the handsome returns shown could have put the shares up to this high water mark. The fact referred to is the drop in exchange which, with the same dividend in sterling as that declared by the Bank the corresponding half of the year before gives the China shareholders in "dividend" about 15 per cent more than the previous year.

Docks were still suffering from disadvantages of such a nature that a good year would completely obliterate. The report for the second half of 1902 has been rather disappointing to a good number of the shareholders, who had been confidently expecting larger earnings for the six months in question, but it seems that they were rather over sanguine. However, one may reasonably expect a very fair improvement for the current half year over either of the halves of 1902, while improvements in prices can be reasonably expected to take place during the ensuing six months as the Company is certainly doing a very good business and, in fact, has been doing so since the commencement of the present financial half year.

ASK for ASAHI JAPANESE BEER—G. Girault.

INSURANCES.

The main feature noticeable under this heading is the rise in Union Insurance shares, which have gone up during the month from \$460 a share to \$510. As far as can be ascertained there does not appear to be any other reason for this rise than that of the good dividend that the Company, a short time ago, paid to shareholders and the splendid business which it is doing. Other marine insurances have been rather neglected. As to Fires, Chinas showed a tendency to harden and shares have been taken off the market at \$861, while Hongkong Fires were placed at \$327.50.

SHIPPING.

The most active stock in this group as is well-known to operators, is Indo-China, which has been a very unknown quantity, and it is doubtful whether any but a few who are really in the know, and who have the manipulation of the wires could foretell what was likely to take place in connection with the stock. Its market prices are certainly controlled by the Northern port, and the maintenance of rates is mostly dependent on our northern neighbours. However, one could hardly see one's way to expect the upholding of its prices for a long time by speculators alone, backed by solid and substantial earnings of the Company. Although it is rather early in the day to tell what the Company is going to show for the past twelve months, people who are familiar with shipping and the movements of cargoes do not expect that the result for 1902 can in any way compare with those of the few preceding years. Steamboats have again paid the dividend of \$1.50, and the Company seems to have done very well indeed from the prices that are being offered for shares. The competition that it is facing both on the River and to Macao does not seem to affect the confidence felt by its supporters. Douglas's are neglected and seem to be entirely out of favour with the public; but as is frequently the case with this stock, one of the periodic spurts will no doubt take place in the shares at no distant date. Star Ferries are continually improving their position, and its shares touched their high-water mark during the month when they were negotiated at \$24.

SUGARS.

With regard to Sugars, China Sugars have been on the downward track for some time past, but during the month improved their position by over \$10 a share, which, it is rumoured, is partly due to short sellers, and partly to improvement in business. The short seller reason may no doubt have had something to do with this rise, but it is to be greatly suspected that the appreciation in the market price for sugar product has been mainly instrumental for this rise. It may be noted by way of parenthesis that the report of this Company has come to hand since setting day, and although the losses for the year are slightly over \$500,000 the demand for shares seems to continue, and the stock is being taken off the market by people who pretend to have some market advantage with the inner working of the Company. It is to be hoped that the general managers, who have the interests of the China Sugar Refinery at heart, have succeeded in contracting for raw sugar at the price that ruled at the beginning of the year, in which event the Company should make up this year for what it has lost the twelve months just finished. Lurons are very seldom heard of in the market; they are likely to have another day.

LANDS AND WHARVES.

The Land Company declared and paid its usual dividend of \$6 a share, and the market closed steady at \$176 ex div. Kowloon Wharves came into favour again and shares slowly but surely crept up, although the expectation of a \$3 dividend has been disappointed, since the beginning of March. Shares have since the issue of the report eased down to \$94.50. It is vaguely reported that some alterations in the inner working of the Company are going to be effected, and, if true, they are expected to increase the earnings of the concern to a considerable extent.

MINING.

There is nothing to be noted under this heading except Funjoms. The Company, as is well-known, has increased its capital by \$500,000, \$200,000 of which became due on the 9th of the month. This money is to be expected by the Directors, will be sufficient to tide them over until they can strike something rich. In view of the fact that the Company has been suffering from adverse circumstances, too numerous to mention in this short reference, it is to be hoped that the expectations entertained by the Directors will not prove unfounded, and that the long-suffering shareholder will some day get some, if not all, of the money sunk in this seemingly bottomless pit.

MISCELLANEOUS.

Regarding stocks under this heading, the only one worthy of reference is Cements. The stock has gone up from \$20.50, in the early part of the month, to \$23 a share below which shares were difficult to obtain. It is confidently expected that the Company will pay a larger dividend for the past year than it did for the previous twelve months, though to what extent this increase, if any, will be to the early year is forshadowed; if any, will be to the early year is forshadowed. It is to be expected that the stock is well worth holding on to if one only remembers that the output of the Company is year by year increasing.

On the whole it should be noted with satisfaction that the "panic" feeling, that was prevalent during 1902 seems to have entirely disappeared, and although share operations have not resumed normal proportions still, bearing in mind the heavy blow from which the market is just recovering, it is a matter for self-congratulation that even this little bit of improvement is so soon noticeable.

THE PLAGUE.

During the twenty-four hours ended at noon to-day, one further case of bubonic plague, making 52 since January 1st, was notified as having occurred in Hongkong. It was another case of dumping the body of a Chinese, being found on the Hongkong and Canton wharf.

GROSS CORRUPTION IN FOCHOW NAVY.

The *Sin Wen Pao* is informed that the Fochow Arsenal has several despatch boats which are maintained by the Authorities. During late years, the commanders, mates, engineers, cadets and even sailors have not only been constantly absent from service but have overdrawn their salaries. Some of them have gone so far as to hold two positions in the same service, thus one man drawing the pay of two. In short, gross corruption prevails in the whole service. The Fochow Naval Authorities have now taken steps to have these evils eliminated and reorganize the system.

THE S.S. "SIBERIA"

Another big Pacific Mail liner—the *Siberia*—has reached here from the Eastern seaboard to swell the fleet of mammoth deep-sea steamships which are now making San Francisco their home port. This new acquisition is a sister ship to the *Korea*, says the *San Francisco Chronicle* of the 5th ult. now making the second round trip in the China trade, and she will be placed in the same service as soon as her present cargo is discharged.

Ocean steamships of the largest tonnage are now becoming quite common sights in San Francisco bay. Their number is steadily increasing, but the demands of a growing commerce are calling for still more. In a few years, if they keep on multiplying at the rate they have done during the past three or four years, they will become as numerous here as they are now in the harbour of New York. In all directions these big liners are now playing the waters of the Pacific, either headed this way or carrying cargoes hence to distant foreign ports. Thus far, the *Siberia* is the largest vessel which has entered San Francisco harbour. Her registered tonnage is three tons in excess of that of the *Korea*, although both ships were built on the same lines. A decade ago no one suspected that such big craft could ever carry cargoes enough here to keep them regularly employed; but no one is now rash enough to doubt that much larger ones and many more of them will be employed regularly in the commerce of the port within the next ten years. Every new arrival of larger type which added this home fleet ought to stimulate us to adopt a new policy for the improvement of the water front and the enlargement of its facilities. We are seemingly wide awake to all other conditions and possibilities except this one, which is fast becoming an urgent necessity.

THE WEATHER.

The following report is from Mr. F. G. Figg, Acting Director of the Hongkong Observatory:—
On the 7th at 11.50 a.m. The barometer has risen over Japan, fallen on the China coast, particularly in the North.
Pressure is highest over the E. coast of China, and lowest and relatively low over the W. part of the China Sea.
Forecast:—fresh to moderate E. winds; unsettled, rainy.

WEEKLY SHARE REPORT.

Messrs. Benjamin Kelly and Potts in their report dated 6th inst. state as follows:—
Business in shares has been particularly lively during the past week and investors have been in the market to a considerable extent with the result that most of the better class of securities show an appreciable rise on last quotations.

The Hongkong Hotel Company, Limited, has advertised its ordinary half-yearly meeting for the 13th March. The transfer books will be closed from to-morrow, the 7th, to the 13th instant, both days inclusive.

The fourteenth ordinary general meeting of shareholders in Messrs. Geo. Fenwick and Company, Limited, will be held on the 9th instant, till which date the transfer books are closed.

Banks.—Hongkong and Shanghai Banks have continued firm, and after small sales at \$695, extensive transactions at \$690 have taken place, the market closes with further inquiries at the latter rate. The London quotation is \$623 ex dividend. Nationals are unaltered.

Marine Insurances.—Unions have further advanced, and are now wanted at \$525. China Traders can be placed at \$58. North-Chinas are required for at \$15. 195, and Yangtzes remain in request at \$35. Cantons have probable buyers at \$164.

Fire Insurances.—Hongkong Fires have inquiries at \$305 ex the dividend of \$224 paid on the 31st instant. China Fires have been done and are in demand at \$804 ex the dividend of \$6 paid to-day.

Shipping.—Hongkong, Canton and Macao Steamboats continue in request at \$363. Indo-Chinas have again ruled very erratic: at the beginning of the week the market rushed up to \$115, but a sharp reaction followed and it quickly declined to \$106: towards the close, however, it strengthened again, and sales at \$106 have been effected, at which price there are further inquiries for shares. Douglas Steamships have again been booked at \$43. China and Manilas have been dealt in and more shares are asked for at \$27. Star Ferries (old issue) have improved, and are wanted at \$253; the new shares are unchanged with buyers at \$14. Shell Transports have again been disposed of at \$110. Cargo boats are in demand at the further enhanced rate of \$15. 160.

Refineries.—China Sugars have been the medium of a fair business at \$100 and \$101, and more shares can be placed at the latter price. The accounts and report for 1902 show a profit on working of \$445,274.92. Luzons are unchanged. In their annual report, the general managers state that, for reasons mentioned in the previous report, it has been impracticable to work the refinery at Malabon during any portion of 1902. Inclusive of \$50,675.81 brought forward from the year 1901, the profit and loss account shows a balance at debit of \$62,363.31, which is carried forward.

Mining.—Punions have been sold at \$34. The result of crushing for part of the month of February is as follows:—300 tons of Old Headings crushed for yield of 72 ounces of amalgam, valued at \$2.80. In a letter received this morning, dated the 21st February, the manager states in regard to the above, and upon the subject of tin, as follows:—Crushing is being carried on, and as the whole of this month will be occupied on Headings from the Siamese workings before we can get at the

COTTAM & CO. FOR WASHING BOW TIES.

stone, I anticipate that the crushing will be poor. * * * About half a mile from the place where tin was previously found, we have discovered a large quantity of Wash. In places fully 1 lb. of low grade tin ore can be obtained from one dish. Samples of this have been sent to Singapore for assay. If there is a fair percentage of tin in the ore, the find will be a valuable one, as it is close to water, being within a quarter of a mile from the Lipis River. Raids have been given in small quantities at \$74. Chinese Engineerings continue on offer at \$15. 84.

Docks, Wharves, and Godowns.—Hongkong and Whampoa Docks have improved their position and are required for at \$200. Farnhams are firmer and have buyers at \$15. 185. The report and account of the Hongkong and Kowloon Wharf and Godown Company Limited, for 1902, shows that the gross revenue derived from wharfage, landing &c., totals \$233,310.13 as against \$809,833.30 the previous year, being an increase of \$13,486.83, and the profit on working amounts to \$270,140.85 as compared with \$212,755.02 in 1901, being an increase of \$27,385.83. Inclusive of \$12,402.74 brought forward from last year, and after deducting Directors' and Auditors' fees (\$10,500) and writing \$24,445.68 off wharves, launches, lighters, tolling stock, machinery and plant, there remains a sum of \$179,481.69 available for distribution. An interim dividend of \$2 per share (absorbing \$60,000) was paid in August last; it is now proposed to pay a final dividend of \$2 per share (absorbing \$75,000) and transfer \$30,000 to depreciation and repair account, leaving \$14,481.69 to be carried forward. Shares have been negotiated at \$96. Hongkong Wharves are reported sold in Shanghai at \$13. 320. New Amoy Docks have been parted with at \$53.

Land, Hotels and Buildings.—Hongkong Lands can be placed at \$176. Hongkong Hotels have changed hands at \$2.42 and \$141 and are now quoted at \$143. Small lots of Orient Hotel have found buyers at \$30. Sales of Hotel des Colonies are reported at \$15. 161 in the North. Astor House Hotels (Shanghai) are obtainable at \$30. Humphreys Estates have been done at \$113, and China Providents at \$9.

Cotton Mills.—Are all firmer. Both Ewos and Internationals are wanted at \$17. 37, and Lau Kung Mow have buyers at \$15. 40. Hongkong Cottons keep steady at \$167.

Cigar Companies.—Sumatras are in the market at \$15. 53. Philippine Tobacco Trusts have inquiries at \$20, and Alhambras are wanted at \$350.

Miscellaneous.—Green Island Cements have again been dealt in at \$221, and continue in demand at the rate. A. S. Watsons are to be had at \$14. Business in Electrics have been done at \$13.80 and \$6.85 for the old and new shares respectively. Manila Investments have been placed at \$15. China Bakeries are unchanged at \$40. The Company will pay a dividend of \$13 1/2 per cent. the past year. Langkats have changed ownership at \$15. 280, and more shares are required for.

SHIPPING AND FREIGHT.

There has been a brisk demand for tonnage during the past week and freights have improved. From Saigon to Hongkong, 19 cents per picul is the last, and 20 cents the offering quotation for prompt tonnage, to one port. Philippines 35 cents is the last and offering quotation; to Java and Japan, there is no demand. Several steamers have been fixed from Newchwang to Canton at 31 1/2 cents per picul. From Wuhu to Canton the quotation is 26 1/2 to 27 cand. per picul.

Coal freights are firm, to Moji to Hongkong, \$2.15 per ton; to Singapore, \$2.40; and to Manila, \$3.50, possibly \$3.75.
